

***Starships of the Galaxy* art gallery!**

Starships of the Galaxy has it all: construction guidelines, ship modification rules, maps, prestige classes, mass combat rules, and Gamemaster characters. Oh, yes, and ships - lots of ships. The Cloakshape Fighter, I-7 Howlrunner, Corellian Gunship, Skipray Blastboat - if it flies, *Starships* probably has it. And art director Sean Glenn has provided us with images straight from the book for our online art gallery of starships. Pick out a new ship for your heroes to fly (or fight!) or just click and enjoy the pictures by artist John Gallagher. Either way, be sure to check back in the next few weeks for even *more* images from *Starships of the Galaxy*.
